

ISABELLE DELANNOY

An empty wall is a space without life ! Furnish it with original and unique way by entering the world of a painter !

In her workshop, Isabelle Delannoy continues an already rich work, served by a creative will, demanding and generous. The color is in the center of its concerns. The artist works from a limited palette that consists of natural pigments, declined until desired harmony, giving her sober and vigorous painting a very personal atmosphere.

The artist works for interior designers or a private in France and abroad on order or direct purchase. She proposes landscape compositions of very large sizes, highly decorative floral series, series on the same theme but also small paintings for more intimate alcoves or entrance galleries.
